

ALWASI MUHRIJAFIATNA

Fresh Graduate

29/01/2002

ABOUT ME

A fresh graduate in Electrical Engineering Education with hands-on experience in IoT system development and industrial maintenance. Proven leadership in managing technical projects, eager to combine hardware expertise with software innovation to create impactful solutions.

SKILLS

- Design & Building Electronic System
- System Analysis (UML)
- Design & Building IoT System
- Technical Design & Software

ORGANIZATION EXPERIENCE

ELECTRICAL ENGINEERING STUDENT ASSOCIATION 2022-2023

Head of Telecommunication Engineering Development Sub-Division

Designed and executed targeted work programs to enhance students' practical knowledge in the telecommunications field.

WORK EXPERIENCE

KIA CERAMICS 03/2025 - 07/2025 *Supervisor Maintenance & Engineering*

Managed detailed maintenance history logs, tracking equipment performance to strategically reduce future machine downtime.

SMKN 12 BANDUNG 07/2023 - 12/2023 *Aviation Electronics Teacher*

Taught and mentored students in aviation navigation and communication systems over a full semester, simplifying complex electronics concepts.

PT. INOVINDO DIGITAL MEDIA 07/2023 - 12/2023 *IoT Project Team Leader*

Directed a team to design and build a 'Smart Pot' IoT system aimed at optimizing the growth and care of ornamental plants.

EDUCATION

INDONESIA UNIVERSITY OF EDUCATION 2020-2024

Bachelor of Education (in Electrical Engineering Field) GPA: 3.54
